Summary

Professional Summary

Motivated Computer Science Engineering undergraduate with **C++** and **Python** as primary programming languages. Possess a solid foundation in **Data Structures & Algorithms, Object-Oriented Programming, HTML, CSS, JavaScript**, and **SQL**. Passionate about software development, problem-solving, and building efficient applications. A quick learner with strong analytical, communication, and teamwork skills, eager to contribute and grow as a software engineer.

Professional Experience

Software Development Intern, Aleafiaa Pharmaceutical Pvt. Ltd.

06/2025 – 07/2025

Thane,Mumbai

- Developed responsive web application features to enhance user experience and application performance.
- Integrated REST APIs and collaborated with development teams to deliver software solutions.
- Utilized Git and GitHub for version control and efficient project management.

Education

B.Tech in Computer Science Engineering, Amity University Mumbai

08/2023 – 06/2027

Mumbai, India

- Pursuing [B.Tech](#) in Computer Science Engineering with a CGPA of **8.45/10**.
- Strong foundation in **C, C++, DSA, python, web development**.
- Developed full-stack web applications and AI-based projects.

Secondary & Senior Secondary Education (CBSE), Vikash Residential School

04/2019 – 05/2023

Odisha, India

- Completed Secondary (**87%**) and Senior Secondary (**74%**) education under the CBSE curriculum.
- Built a strong foundation in Mathematics, Science, and Computer Science.
- Developed analytical thinking, problem-solving, and teamwork skills.

Projects

AI Interview Questions Generator, Full-Stack Web Application

- Developed an AI-powered platform that generates role-specific interview questions using the OpenAI API.
- Built backend services using Node.js and Express.js for prompt processing and API integration.
- Designed a responsive user interface for personalized interview preparation.
- Improved problem-solving and API integration skills through real-world implementation.

Number Guessing Game, Interactive Web Application

- Developed an interactive Number Guessing Game using HTML, CSS, and JavaScript with random number generation.
- Implemented user input validation, real-time feedback, and attempt tracking to enhance gameplay.
- Designed a responsive interface and integrated restart functionality to improve user experience.

To-Do List Web Application, Task Management System

- Developed a task management application supporting CRUD operations using modern web technologies and OOP principles.
- Designed REST APIs and integrated MongoDB for efficient data management and backend development.
- Built a responsive user interface with seamless client-server communication and strong software engineering practices.

Skills

Programming Languages

- C, C++, python,javascript

Database Management

- MongoDB, MySQL

Development Tools

- Git, GitHub, VS Code

Web Development

- HTML, CSS, React.js,Node.js, Express.js, REST APIs

Software Engineering

- Data Structures & Algorithms, Object-Oriented Programming
