Summary

Aspiring AI/ML Engineer with knowledge of C, C++, Python, SQL, and Excel, along with a basic understanding of Data Structures & Algorithms. Passionate about learning Artificial Intelligence and Machine Learning concepts, solving real-world problems, and building innovative software solutions. Experienced in developing web applications and integrating APIs through academic projects and internship experience. Quick learner with strong analytical, logical, and problem-solving skills, eager to apply technical knowledge, gain hands-on experience, and contribute to software development, AI-driven projects, and data-driven solutions while continuously expanding my knowledge in collaborative team environments.

Professional Experience

Software Development Intern, Aleafiaa Pharmaceutical Pvt. Ltd.	06/2025 – 07/2025 Thane, Mumbai
- Contributed to the development of the Aleafiaa company website as part of a collaborative development team, helping improve its functionality and user experience. - Collaborated with team members on frontend and backend development tasks to support software development activities. - Participated in requirement discussions, testing, and debugging to ensure the delivery of reliable software solutions.	

Education

B. Tech in Computer Science Engineering, Amity University Mumbai	08/2023 – 06/2027 Mumbai, India
- Pursuing a B. Tech in Computer Science Engineering with a CGPA of 8.45/10. - Knowledge of C++, Python, SQL, Data Structures & Algorithms, and Web Development. - Developed full-stack web applications and AI-powered projects through academic and personal projects.	
Secondary & Senior Secondary Education (CBSE), Vikash Residential School	04/2019 – 05/2023 Odisha, India
- Completed Secondary (87%) and Senior Secondary (74%) education under the CBSE curriculum. - Built a strong foundation in Mathematics, Science, and Computer Science. - Developed analytical thinking, problem-solving, and teamwork skills.	

Projects

AI Interview Questions Generator, Full-Stack Web Application	
- Developed an AI-powered platform that generates role-specific interview questions using the OpenAI API. - Built backend services using Node.js and Express.js for prompt processing and API integration. - Designed a responsive user interface for personalized interview preparation. - Improved problem-solving and API integration skills through real-world implementation.	
Number Guessing Game, Interactive Web Application	
- Developed an interactive Number Guessing Game using HTML, CSS, and JavaScript with random number generation. - Implemented user input validation, real-time feedback, and attempt tracking to enhance gameplay. - Designed a responsive interface and integrated restart functionality to improve user experience.	
To-Do List Web Application, Task Management System	
- Developed a task management web application with features to add, update, and delete tasks. - Built the backend using Node.js, Express.js, and MongoDB for storing and managing task data. - Created a responsive and user-friendly interface for efficient task management.	

Certification

Full Stack Web Development with AI (Internshala Trainings)	06/2026
Certified AI Professional (Participation Certificate for Become a Certified AI Professional in 2026)	06/2026

Skills

Programming Languages Python, C++	Web Development HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, API Integration.
Database Management MongoDB, SQL	Software Engineering Data Structures & Algorithms
Development Tools GITHub, VS Code
