

Aarav Demo

Junior Backend Developer

FICTIONAL SAMPLE - FOR TEAM DEMONSTRATIONS ONLY

demo.candidate@example.com | Pune, India | Portfolio: example.com/demo

PROFILE

Computer science graduate focused on JavaScript backend development. Built Express APIs with MongoDB, authentication, validation, and automated tests. Seeking a junior role with mentoring in deployment and distributed systems.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Backend: Node.js, Express, REST APIs, JWT, request validation

Data and tools: MongoDB, PostgreSQL basics, Git, GitHub Actions, Docker basics

Frontend: React and Next.js basics

PROJECTS

Campus Task Board | Personal learning project | Jan - Apr 2026

- Built an Express REST API for tasks, teams, and comments using MongoDB.
- Added JWT login, ownership checks, pagination, and input validation.
- Wrote 24 integration tests and a GitHub Actions workflow for API checks.

Interview Practice Tracker | College project | Aug - Dec 2025

- Created a React interface for saving interview notes and tracking practice sessions.
- Added loading and error states and checked the interface on mobile screens.

EXPERIENCE

Software Engineering Intern | Fictional Learning Labs | May - Jul 2026

- Implemented request validation and consistent API error responses in a training application.
- Used query indexes to reduce a benchmark endpoint from 220 ms to 140 ms on a synthetic dataset.
- Participated in code reviews and documented API setup for three fellow interns.

EDUCATION

B.Tech. in Computer Science | Fictional Institute of Technology | 2022 - 2026

Demo GPA: 8.2 / 10

LEARNING GOALS

Improve SQL joins, caching with Redis, container deployment, and API observability. No professional production deployment experience yet.
