PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in building AI-enabled and full-stack web applications using the MERN Stack, JavaScript, and SQL, along with working knowledge of Python and C++. Experienced in integrating Large Language Models (LLMs), AI APIs, and RESTful services to develop intelligent, user-focused applications through academic projects and internship experience. Strong understanding of Object-Oriented Programming (OOP), Data Structures and Algorithms, and software engineering principles. Passionate about leveraging Generative AI and LLM technologies to build scalable software solutions and contribute effectively in collaborative engineering environments.

PROFESSIONAL EXPERIENCE

Web Development Intern

Aleafiaa Pharmaceutical Pvt. Ltd. | Thane, Mumbai

06/2025 – 07/2025

- Contributed to the development of the Aleafiaa company website as part of a collaborative development team.
- Assisted with frontend and backend development tasks to improve website functionality and user experience.
- Participated in requirement discussions, testing, and debugging to ensure reliable software solutions.

EDUCATION

B.Tech in Computer Science Engineering

Amity University Mumbai | Mumbai, India

08/2023 – 06/2027

- Pursuing B.Tech in Computer Science Engineering with a CGPA of 8.45/10.
- Developed full-stack web applications and AI-powered projects through academic and personal projects.
- Gained knowledge of C++, Python, SQL, Data Structures and Algorithms, and Web Development.

Secondary and Senior Secondary Education (CBSE)

Vikash Residential School | Odisha, India

04/2019 – 05/2023

- Completed Secondary Education with 87% and Senior Secondary Education with 72%.
- Built a strong foundation in Mathematics, Science, and Computer Science.
- Developed analytical thinking, problem-solving, and teamwork skills.

PROJECTS

AI Interview Questions Generator

Full-Stack Web Application

- Developed an AI-powered platform that generates role-specific interview questions using the Groq API.
- Built backend services using Node.js and Express.js for prompt processing and API integration.
- Designed a responsive user interface for personalized interview preparation.
- Strengthened problem-solving and API integration skills through real-world implementation.

AI Career Guidance Platform

AI-Powered Full-Stack Web Application

- Developed an AI-powered career guidance platform using the MERN Stack with secure JWT authentication and PDF resume upload.
- Integrated Google Gemini AI for resume analysis, ATS score generation, skill gap analysis, and career recommendations.
- Implemented a Groq-powered LLM chatbot to provide personalized career roadmaps based on users' resumes and target roles.
- Built a responsive dashboard with ATS visualization, resume history tracking, and AI-driven career insights using MongoDB.

To-Do List Web Application

Task Management System

- Developed a task management web application with features to add, update, and delete tasks.
- Built the backend using Node.js, Express.js, and MongoDB for storing and managing task data.
- Created a responsive and user-friendly interface for efficient task management.

CERTIFICATIONS

Full Stack Web Development with AI – Internshala Trainings		06/2026
Certified AI Professional	s	06/2026

SKILLS

- Programming Languages: Python, C++, SQL
- Database Management: MongoDB, MySQL
- Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, API Integration
- AI and API Integration: Large Language Model (LLM) Integration, Google Gemini API, Groq API, RESTful APIs
- Software Engineering: Data Structures and Algorithms, Object-Oriented Programming
- Development Tools: GitHub, VS Code
